PROFESSIONAL EXPERIENCE

Company Name

2009 - Date

NYSE Technologies is the commercial technology division of NYSE Euronext and is one of the world's leading providers of end-to-end electronic trading solutions.

Financial Analyst / Business Controller

Recruited to undertake a dual role as Business Controller for Enterprise Software (a division of NYSE, earning \$45m in revenues) and to calculate group wide commissions on a quarterly basis for a sales team of 60+.

- Built and maintained excellent relationships with clients and colleagues alike, across global business units.
- Collaborated with senior management and travelled extensively to London and New York offices with specific focus on streamlining the commission calculation process.
- Generated and analysed full monthly P&L accounts for a \$45m business unit and produced regular c-level management reports with a focus on KPI management, financial reporting and business reviews.
- Undertook full revenue generation audit to ensure the adherence of GAAP practices.
- Calculated Asian, American and European sales team commissions on a quarterly basis across 5 business lines with accuracy and efficiency.
- Analysed individual plans to ensure accuracy of a complex calculation which involved revenue growth and SOV targets.
- Liaised with regional managers, global sales managers and the group CFO for payment approvals.
